

E Sailing

All

We are about to start club Sunday afternoon and Wednesday evening virtual inshore sailing that should be fun. The game can be played on PC, iPad, tablet, or smart phone.

How to get started

You don't need to pay to use Virtual Regatta. It's as simple as visiting their website from a laptop or PC <https://www.virtualregatta.com/en/inshore-game/> or downloading the app on a smartphone or iPad and clicking 'play now' on either the inshore or offshore game. You can then enter the game and learn how to use it and compete against others all around the world.

If you want to compete and keep your score, you'll need to create a login and a user profile. You also have the option of entering the E Sailing World & GBR National Championships.

Watch these videos first they will guide and help you understand the game;

<https://www.youtube.com/watch?v=tFPc-dA6x-w>

https://www.youtube.com/watch?v=i_s2Ujk5VYI

On a PC go to

<https://www.virtualregatta.com/en/inshore-game/>

on a smartphone or iPad open the app.

Create your profile: please make your profile name simple so you can be easily identified (results have to be manually recorded on a spread sheet after each race having taken a screen shot !!)

Once you have created your profile please email your name and profile name to wishsc1@outlook.com so that a results table can be formulated.

Prior to racing start time sign into the game and select custom race.

The races are private so you will need to enter the access code which will remain the same for every race on that day. The membership mojo database will email members the race daily access code prior to racing commencing.

At 1900 on Sunday 19th and Wednesday 22nd we will run practice races through to 2100 (or longer if people are having fun). Each custom race has a maximum of 20, however you can still watch the race live whilst you wait for the next race. We will be learning on Sunday and Wednesday so be patient and everybody will get some races in. Once we establish how many would like to enter the race series, we can add them to the friends list to see who is on line that will assist in devising a race system to suit which may include knockout heats to progress through to each main race so that everybody is included. Further instruction will follow when we have completed the practice races and established how we will run the series.

Race Series

We will start the race series at 1400 on Sunday 26th and 1900 on Wednesday 29th and every Sunday and Wednesday following at the same times.

Attached are the virtual sailing guide and rules !!

Stay safe and see you on the virtual water.
